Dear: Honorable Stephen R. Clark

I know you probably get thousands of letters from people saying, "How they'll do better and how jail changed them". This letter is no different, I truly feel jail did change me for the better not only because of the conditions and restrictions but because I missed the most important part of my unborn son life and my girl pregnancy.

I havent been able to enjoy this pregnancy with my soon to be future wife, I've physically missed all doctors appointments, and all other joyful moments that comes with the father life. I can't begin to explain how this has hurt, and effected me..... I want to do better knowing knowing I have a son that's about to be on this earth. I just wanna be a successful person in life and great father. Jail is not a place for an accountable adult. I will never come back based off my experience people get 2nd chances and don't

take advantage of the opportunity  
I love my family, life, freedom, and  
If I was afforded mercy and a  
2nd chance at life by the decision  
of you Honorable Judge Clark  
I will forever be appreciate of  
your choice to give me the  
opportunity to be a better man  
and a great father. I'm sorry  
for not using better decision making  
when it come to the crime I  
committed and life I affected,  
but from this moment on cutting  
corners to Succeed in life will be  
a thing of my past. Thanks for  
your time and please forgive  
my simple way of thinking.
